

Casual Recreational Workers

£9.00 per hour – evenings and weekends

RAP is a project for vulnerable young people aimed at improving the lives of children and families through an activity of their choice. Workers will be required to be CRB enhanced reference checked and have previous experience of working with children and young people. Volunteers who have undergone our accredited mentoring programme and gained experience in mentoring young people are particularly encouraged to apply. Work will be on a casual basis, as and when required but mainly at weekends and in the evenings.

Successful applicants will transport children and young people to and from agreed social and recreational activities in their local community.

We are looking for workers who can demonstrate an understanding of children and young people issues, have good communication skills and will have the ability to engage with local community resource and activity providers.
